## Disinformation & Censorship of News

Disinformation, also known as propaganda, is the currency of leftist organizations.

Disinformation and propaganda are deliberately misleading. As such they cannot stand where public debate is allowed.

That is why certain "information services" have some sort of standards or policies. They cite their standards and policies when they want to suppress or silence their opposition.

While nothing I'm saying here is new -- George Orwell did a super job on this topic in his famous "1984" novel -- nonetheless : it's important and as such, it bears repeating.

Today we find suppression in "cancel culture" -- which is a device for boycotting organizations -- or individuals -- who speak or act in opposition to whatever this "woke culture" proselytizes.

How do we know what's right and what's wrong?

Dr. Franklin opined that "experience is the only true test of any proposition". This fits well with other well known remarks such as "Those who know not their history are condemned to live it over", and "experience is a hard master and a fool will learn by no other".

Communism is a bad idea. Ask those who have been through it or study the circumstances of those who are now living under the oppression that the communists use to maintain their control of their people and their resources.

Seek alternate sources of information.

**Leftist Organizations:** seek to overthrow an established government in order to assume administrative control of a country and its people;

**Liberal Organizations** -- of the Classic Type -- seek to loosen the controls that oppressive (leftist) organizations impose against people;

**Conservative organizations** seek to maintain the current status.

In a peaceful and prosperous society the people will have what they need for their comfort and sustenance and will tend to become Conservative -- i.e. they will seek to protect their circumstances.

Where a regime becomes oppressive opposition will form and the oppressive regime will claim it is being attacked by "leftists". Here "leftist" just means "opposition", any derogative name might be used. "Rebels", -- is a favorite.

Oppressive regimes love to distort the meaning of words and language in order to support their propaganda and specious arguments.

The American Revolution replaced an oppressive government -- the British Crown -- with a Liberal Government. The Liberal Government loosened the rules by placing strict restrictions on the power of government.

Once established, this formed government "of the people, by the people and for the people" -- as the conservative position.

Let us not fail in our duty "to be here rededicated" -- to the Cause of Freedom.
